WHO WE ARE

EcoForce USA is the premier provider of eco-friendly, non-toxic solutions engineered to solve the toughest sanitation, pest control, and biosecurity challenges across federal, state, and local agencies. We are your force for a cleaner, safer, and healthier world—empowering government operations with sustainable innovation.

Core Competencies

EcoForce USA provides eco-biosecurity and environmental control services for government and institutional clients. Operating as a prime contractor, EcoForce USA delivers residue-free, non-toxic systems designed to reduce environmental risk while maintaining compliance and operational continuity.

- Residue-free environmental sanitation and biosecurity systems
- Pest, pathogen, and biofilm pressure reduction
- SOP-compatible deployment in occupied and high-traffic environments
- Facilities support and environmental risk mitigation
- Prime contractor execution with subcontractor coordination and oversight

Services

All services are designed to support compliance-sensitive environments, reduce operational disruption, and minimize long-term remediation risk.

- **Facility Maintenance & Sanitation**

- Advanced bioenzyme-based cleaning for government buildings, hospitals, military bases, and transportation hubs.
- Pathogen-free facility solutions to ensure compliance with federal sanitation regulations.
- Non-toxic, high-performance alternatives to traditional chemical disinfectants.

- **Agriculture & Food Safety**

- USDA-approved organic pest and disease control solutions for crops and livestock.
- Biosecurity measures for food processing and storage facilities.
- Compliance-driven sanitation protocols for agricultural agencies.

Eco-biosecurity • Environmental control • Residue-free sanitation • Non-toxic pest control • Facilities support services • Compliance-safe operations

• Public Health & Biosecurity

- Lice and pathogen control solutions for shelters, schools, and emergency housing.
- Eco-friendly, hospital-grade sanitization for high-risk public health environments.
- Comprehensive outbreak containment and mitigation programs.

• Military, Defense & Correctional Facilities

- Advanced sanitation and hygiene programs for bases, training grounds, and prisons.
- Bio-safe solutions for secure environments without toxic exposure risks.
- Specialty pest control tailored for high-security facilities.

• Disaster Response & Emergency Services

- Rapid deployment of hygiene and sanitation systems post-disaster.
- Safe, non-toxic decontamination solutions for emergency relief operations.
- Scalable response teams equipped to manage biohazard crises.

WHY CHOOSE ECOFORCE USA?

• Prime Contractor Execution Model

- Single point of accountability aligned with "single-throat-to-choke" procurement requirements.

• Residue-Free, Non-Toxic Systems

- Compatible with occupied facilities, public environments, and regulatory constraints.

• Prevention-Focused Biosecurity Approach

- Systemic environmental control designed to reduce emergency response and remediation events.

• Cross-Sector Applicability

- Biosecurity principles validated across facilities, corrections, agriculture, and institutional settings.

• Compliance-Aware by Design

- Services structured to support audits, documentation requirements, and repeat-safe application protocols.
